

Why partner with CMS?

We at CMS(California Media Services) are your premier supplier and service partner for all your Wide Format needs. We specialize in Roll-to-Roll and Flatbed printers. Our exclusive partnership with HP affords CMS customers first class service and support for all your printing needs. Our organization has been partnered with HP since 1993 with installations topping over 200 units. We were instrumental in the successful launch of both the UV and Latex printing technologies from HP on the West Coast.

Just like you, CMS is a family owned and operated business. We have been in business since 1988. We pride ourselves on both our personal touch, as well as our professional knowledge. Our customers as well as our partners see us as a trusted advisor in the wide format printing arena. Our priority is your success and profitability. As a small business we understand your needs to be streamlined, proficient and to have a single point of contact. Our belief is "if your family is successful so will ours".
